### Multi Media Center

The Multi Media Center (MMC) provides graphics support, print and publication support to all of SSA. MMC serves components and Agency level events- large and small- and provides graphic support to the SSTV Network. Program coordination, graphics development and resolution of technical issues make SSTV a viable information delivery system. From Power Point presentations to Alpha/ Numeric representations, MMC offers a cadre of services to employees at all levels of involvement.

### Broadcast Media Broadcast Center Photographics

### Broadcast Center

OMT's Broadcast Center (BC) provides SSA with full-service, broadcast-quality, video production both live and tape. BC provides up and downlink satellite services and video clip services for Social Security- related matters that are covered in the electronic media. BC also produces high quality computer graphics for use in Inter/Intranet application, for use in live presentations, and for use in video productions that involve video and/or video graphics display.

## Office of Media Technology

### Broadcast Media SSTV Photographics

Includes approximately  
42 television monitors in  
strategic, highly visible  
locations

### SSTV-Social Security Television

Social Security Television (SSTV) is designed to provide employees with information regarding upcoming events, scheduled activities, news worthy reports, facility and weather related emergencies, messages from the Commissioner, and other items of general employee interest. This system supplements existing communications vehicles such as the public address system, Headquarters News, E-Mail, and Central Office Bulletins, to headquarters employees.

Upcoming Events	SSTV Staff
Converting text to speech to comply with 508 Disability Act	Kathy Grall
	Linda Monteleone
	Lillian Smith
	Charlotte Mason
	Heather Myrick

SSTV - The employee's information  
Channel 55

If you would like your message to be aired on SSTV  
call 410-965-8544 or e-mail your information to  
SSTV@ssa.gov
